

territory to produce their product. As long as there is crushing poverty in the region, there will be a supply of poor farmers to grow coca and poppy. Sending guns to Colombia cannot solve the problems of hunger in Latin America and addiction in the US.

The roots of Andean problems are social and economic as are the roots of many of the problems in this country and the rest of the world. This bill is a good bill, but by far it is not the best. It could go a lot further in addressing the social and economic concerns that fuel many of the world's problems.

Mr. HALL of Ohio. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

□ 1945

Mr. KOLBE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I am pleased to present to the Members H.R. 2506, the fiscal year 2002 appropriations bill for Foreign Operations, Export Financing, and Related Programs. The privilege of managing this bill, one that provides the wherewithal for an effective and humane foreign policy, means a great deal to me personally. I especially appreciate the trust that the Speaker and the gentleman from Florida (Chairman YOUNG) have placed in me, and I thank my subcommittee colleagues in particular for their advice and support.

When I became chairman of the Subcommittee on Foreign Operations, I set out three priorities for myself: first, reversing the spread of infectious diseases such as HIV-AIDS, tuberculosis and malaria; second, encouraging economic growth through open trade and transparent laws; and, third, improving the accountability of the agencies funded through this bill. Making progress on the first two priorities, to at least some degree, is contingent on effective management of the Agency for International Development.

Our recommended bill is the product of bipartisan compromise. It funds the

President's priorities, though there are a few critical differences. Above all, the bill promotes interests abroad, while improving the prospects for a better life for millions of poor people from Latin America to Asia.

H.R. 2506 appropriates \$15.2 billion in new discretionary budget authority, approximately \$1 million less than the President's request, but \$304 million more than last year. A major reason for the increase over last year is that \$676 million is in the bill in new funding for the Andean Counterdrug Initiative. Members will remember that the initial Plan Colombia adopted by Congress last year was funded by a supplemental appropriation bill, which put the spending outside the boundaries of the subcommittee's fiscal year 2001 allocation. Now, unlike the original Plan Colombia, approximately half of the Andean Initiative funds long-term economic development and good governance projects.

The committee recommendation fully funds the military and economic aid request for Israel, for Egypt, and for Jordan. Overall, \$5.14 billion is provided for the Middle East, and I will return to that region momentarily.

For export and investment assistance programs, the committee is recommending \$604 million, which is \$137 million below the 2001 level, but \$118 million above the administration request. The committee accepts a portion of the proposed cut from the current appropriations for the Export-Import Bank, but provides sufficient funds to maintain current program levels.

For international HIV-AIDS programs, the committee is recommending a total of \$474 million. That compares with \$315 million in fiscal year 2001. The committee fully funds the President's request of \$100 million for an international health trust fund, 80 percent of which would be allocated for AIDS. The supplemental appropriation bill which we will consider tomorrow also includes an additional \$100 million from current year funds for the international trust fund.

In addition, no less than \$414 million is available for bilateral HIV and AIDS programs. This amount exceeds the President's request by \$45 million and the level authorized in law by \$114 million. Some of the increase is for new programs in vulnerable countries such as Burma, where little donor assistance is available to restrict the spread of AIDS.

I am aware that Members will offer amendments to increase funding even further for HIV/AIDS and tuberculosis. Both of these are worthy causes. But I would advise them that the committee has been increasing HIV funding above the request for many years under the gentle prodding from the gentlewoman from California (Ms. PELOSI), the former ranking member of the subcommittee.

Yet our Members are aware that we also need to balance the current enthusiasms with longer-term economic
